Superintendent's Highlights

A very busy school year has come to a close. The music program was highly successful due to the experience of the instructor that the school district hired this past year. Students participating in music are to be commended for their outstanding work that they performed.

The staff worked on mapping curriculum during the school year. Although this project is not complete the staff will be able to continue work in this area next year.

Level testing went well with the new MAP computer program. Our Albertson's Level Testing Grant has been of great assistance in this area of student assessment.

Our district is continuing to be part of the ARTEC program of Region IV. We will continue to work with the implementation of the State exiting standards with assistance from McREL through ARTEC.

The board of trustees has adopted a mission statement and goals for the 2001-2002 school year. Improvement of education for the students of the Richfield School District continues to be our main goal.

We still experience some lumps and bumps as we continue to move forward in education. But hopefully progress will continue to level these out over time.

Progress Towards Meeting District Goals

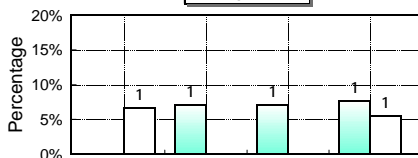

| 2000-01 Goals | Progress |
|-----------------------------------|--|
| To Improve Instruction | Improvement was noted in many areas of instruction this year. Scores on the IRI improved over last year in K, 1, & 2 grades. Third grade remained stable. 73 % of the 11 th grade students scored a 3 or higher on the Direct Writing Assessment. 75% of the 4 th grade students received a passing grade on the Direct Writing Assessment. An 85% score of 3 or higher on the Direct Math Assessment for the 4 th grade was noted. A small amount of growth was recorded by students on the MAP level tests from fall to spring. |
| To bring music to our school | A retired band and choral instructor was hired to start the music program in grades K through 12. This has been a wonderful addition to our school curriculum. |
| To Improve School Facilities | A building committee has worked throughout the year to determine what our classroom needs are for the future. Work will continue in this area during the 2001-2002 school year. Acoustical sound boards were installed in the music to help deaden the sound. New stage curtains were purchased to replace our worn out curtains. |
| To Improve Technology and Its Use | All but about \$4.50 of our Albertson's technology grant money was spent. Smart Boards, computers, printers, and software was purchased to assist teachers in their classrooms. |
